

# Questionnaire

## Point-of-Use Requirements

### Purpose of this questionnaire

We are currently in the design stage of a high purity gas delivery system. The purpose of this questionnaire is to gather information on the gas requirements of the analytical equipment, process or experiment. The goal is to make sure to supply each application with gas at the appropriate quality, flow and pressure. Would you please fill out this questionnaire to the best of your knowledge and return it to:

*Please use one questionnaire per analytical equipment, process or experiment.*

### Identification

Questionnaire filled by

Date

Laboratory name, department, section

Building name or number

Room number

### Description of your application

Analytical equipment, description of experiment or process (please provide: Tag no., name, type of detector, brand of equipment, model number)

Is it an existing or a new requirement?

Is it a temporary or a permanent requirement?

If temporary, for how long?

### Gas requirements

#### Gas 1

#### Gas 2

#### Gas 3

#### Gas 4

Gas name
