

Ceiling Pendants

Why choose our ceiling pendant solution?

Guiding Lights

All pendant's arms are equipped with the newest LED backlighted heads. These will help the medical staff to visualize and co-ordinate intuitively which arm they are operating.

Tailor-made Configurations and Solutions

The entire range can be configured in compliance with any tender specification. Not only the customer can select from a range of available standard lengths for the arms and dimensions for the service head but also these components can be made to measure if needed.

Easy to Install, Easier to Maintain

We create equipment based on two simple key principles: ease of installation and long-lasting top quality components ensuring minimum maintenance and maximum reliability. The pendant is delivered pre-assembled to reduce costs of installation. Easy removable system of the cover for installation and maintenance access.

Powder Coating, Powered Hygiene

Protecting epoxy powder coating guarantees an adequate hygienic surface for all our pendant units. This could be boosted further with our dedicated antibacterial paint to ensure 100% shield against infectious agents.

Safe and Firm Locking

Our enhanced brake system ensures smooth controlled movements and maximum reliability in the course of time. The control keyboard is placed on the main grip of the shelf to drive all movements intuitively. There are 3 different solutions of brake system:

- Friction brake
- Electropneumatic brake
- Electromagnetic brake
 - operation without compressed air
 - multidisk clutch
 - low voltage supply
 - high durability due to absence of wear out friction material

Solid Hygiene

Our innovative Bioclean shelves and drawers guarantee a completely antimicrobial surface. The composite material is extremely long lasting and guarantee in time the adequate hygiene during all operating procedures.

- offer a microbe shield thanks to the non-porous material, extremely easy to clean;
- are free from added chemicals as it does not contain additives;
- are durable in time due to the extremely solid material that maintain color and gloss over the years.

Functional Design and Ergonomics

Designed to be handled intuitively with maximum ease. Profiles' shapes and the various components' proportions are well-thought-out so as to optimize handling.

Configurations

The Pendant supply system is a suspended unit thought specifically for special intensive care units and operating theaters. It can be configured either for the surgeon or the anesthesiologist and the service head can be equipped with all the needed electrical and medical components in compliance with any specification given. It has been designed to offer the medical staff maximum flexibility and reliability.

Vertical or Horizontal Motorized

Our pendant systems are also available with a full motorized mechanism for lifting the service head. This will allow to adjust the height to have all services always in the right place.

They can be also supplied in the most complete configuration which is highly requested for all ICU areas. Both wet and dry sides are safely guaranteed by this specific system that allows a number of combinations: single or double arms for each column to make it ergonomically adequate for all types of action needed on the patient.
